# **Annual Conference**

# **Report 2015**

## **for Delegates and Stakeholders**

## 1. Background to the Rother Local Strategic Partnership and its Annual Conference

- 1.1 The Rother Local Strategic Partnership (RLSP) works with the Rother community and others to improve the economic, social and environmental wellbeing of the Rother community and the quality of life of residents.
- 1.2 After a recent review of the RLSP, the Rother LSP Executive (core membership - see Appendix 1) meets four times throughout the year to organise an annual conference and take forward associated actions. The issues will be discussed by the wider membership at the conference and inform the RLSP action plan.
- 1.3 The Rother LSP Executive agreed that the theme of its annual Conference which was held on 16 June 2015 was “**Helping People to Help Themselves**” and the objective was to enable our local communities to access the services they may need in order to improve their own (and their family’s) wellbeing.
- 1.4 The Conference was to provide an opportunity for a wide range of local agencies and organisations to share their thoughts and ideas about why some Rother residents, and particularly the most vulnerable, may not be accessing services which are available to them across Rother. In addition, to consider the role of self-help and grass roots provision of community services as traditional services reduce and demand increases.
- 1.5 Through discussion at the conference, the Rother LSP Executive aimed to assist services/organisations to:
  - a) Identify what services are available for people in need in Rother.
  - b) Discuss ideas around how to increase the take-up of services by local people that will increase their wellbeing, but particularly amongst the most vulnerable in Rother.
  - c) Identify issues that their organisation believed are preventing people from accessing services.
  - d) Identify what assets are available locally to assist voluntary and public sector providers in directing people to the right service provider(s).
  - e) Explore how, as local organisations, we can continue to deliver quality services with limited and decreasing resources.
- 1.6 This report outlines the findings from the annual Conference for the delegates and Rother LSP Executive to consider and identify any strategic needs or projects to take forward in 2015 and 2016.

## 2. The Conference – Summary

- 2.1 Members of the private/business, public and voluntary/community sector working for Rother residents were invited to participate in the Conference. The **Chair Martin Fisher**, outlined the Rother LSP Executive’s reasons for identifying the Conference theme “**Helping People to Help Themselves**”. He set the scene for the morning’s discussion and provided some key statistics from the Office of National Statistics and HM Revenue and customs for Rother:

- Average earnings are below East Sussex and the National averages.

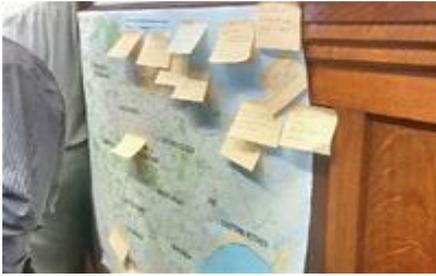

- Number of households in poverty is higher than in East Sussex and the National Average.
- Lower levels in educational achievement.
- Higher % of residents who provide care than in East Sussex and Nationally.
- Higher % of people with longer term health problems or disability than in East Sussex and Nationally.

2.2 This opening speech was followed by four guest speakers who delivered presentations on issues affecting Rother.

- Graham Peters** introduced how the South East Local Enterprise Partnership is working with partners to help create sustainable jobs in Rother, working to improve road, rail, cycling and walking networks. Providing opportunities for larger commercial investment will help develop industries and support small local business growth. Find out more here: <http://www.southeastlep.com/> and <http://www.eastsussex.gov.uk/business/eastsussex/default.htm>
- Naomi Ridley** presented a case study on social enterprise and how such organisations in the local area are working to enable vulnerable people to access support, services and opportunities for skills development. Find out more about the programmes here: <http://www.hfs.org.uk/bexhill.html>.
- Richard Watson** spoke about the causes of health inequalities; Social, economic and environmental; Lifestyles and behaviours, and; Access to services. The current aims of the Reducing Health Inequalities Programme, which started in November 2014, include reducing the difference in the life expectancy of those in the most and the least deprived areas. For more information visit: <http://www.hastingsandrotherccg.nhs.uk/#>.
- Anne McLoughlin** spoke about affordable housing in rural Rother and the challenges that people face living in rural communities. The issues include: low wages / high house prices; fuel poverty (no gas network in rural areas), and; lack of homes for young people. Hastoe Housing Association is a rural housing specialist working across the south of England. Hastoe works with rural communities to ensure developments meet their needs. For more information visit <http://www.hastoe.com/area/17/About-Hastoe.aspx>.

### 3. Mapping exercise:

Participants were asked to identify services and organisations that Rother residents can access by placing the details of the services on maps of East Sussex. 39 different providers were identified - some with more than one service and these are listed in Appendix 2.

### 4. Conference Discussion Groups

- 4.1 The second part of the conference allowed for discussion, focusing on the following themes:
- Improving health and wellbeing
  - Education, jobs, and skills
  - How are our communities coping?
  - Maximising financial resources for residents and agencies
- 4.2 Delegates attended two out of the 4 discussion groups listed above. The discussions and their key points and suggested areas for action were recorded and summarised in a briefing paper for the Rother LSP Executive. The findings have been reflected in section 5.3 below.
- 4.3 The notes from the discussion groups can be found alongside this report on the Rother LSP website: <http://www.rotherlsp.info/>

### 5. The Chair's Reflections at the Conference

- 5.1 Martin Fisher, Chair Rother LSP reflected on some central points which were raised in the group sessions, summed up the event and identified some of the key issues, which included;
- Access to services
  - "Online" is only part of the answer
  - Vulnerable members of the community may lack confidence in accessing services
  - Assumptions are made about IT literacy due to popularity of Facebook and Twitter – some people are not necessarily confident enough to access digital services outside these applications
- 5.2 The Chair called for a Conference report to be produced and circulated to delegates listed in Appendix 3. He also agreed that the Rother LSP Executive Board will consider the outcomes highlighted in the conference report, which will be based on the central discussions held at the Conference and use these to set the action plan and programme for the coming year.
- 5.3 The Rother LSP Executive (core members) considered the briefing document which summarised all of the comments and key points raised by participants at the Conference at its meeting on the 15 July 2015 and identified that core membership will

work closely over the coming year to deliver the Rother LSP action plan which will include the following:

- **Improving Health and Wellbeing** – consider how the Rother LSP can support the work of the local Clinical Commissioning Group to tackle health inequality through community or health and wellbeing hubs in Rother
- **Education, Jobs and Skills** – work through partner agencies to develop a small project for older, experienced members of the community to work/voluntarily mentor young people to improve their maths, English and knowledge of engineering skills to increase their employability.
- **How are our communities coping** –
  - Rother LSP to organise and host a discussion between Council Members and key stakeholders with the Office of the Police and Crime Commissioner, Sussex Police, and the East Sussex Fire and Rescue Service on the changes to service delivery in these emergency services and how we can support the agencies and community to help themselves. This is planned for 28 October 2015 and all members of the wider LSP group who were invited to the conference will be invited to this event.
  - Rother LSP to develop a project to identify the strategically important community assets (building) in challenging neighbourhoods and to consider the sustainability of these assets.
- **Maximising Financial Resources** – to increase access to services by:
  - a) the provision of a single source of information on services for Rother residents, that can be updated regularly and accessed electronically, and via websites, social media etc;
  - b) identify different ways that the most vulnerable in Rother engage with services and access information;
  - c) produce contact and service information on 12 key agencies that serve Rother residents that can be printed out and viewed electronically through the Council and Rother Voluntary Action (RVA) websites;
  - d) All the information from the mapping exercise will be made available to the wider membership and other key stakeholders (see Appendix 2).

## 6. Conclusions

- 6.1 This Conference report will be circulated to all stakeholders, partners, delegates and other interested parties for further information.
- 6.2 The Rother LSP Executive will keep all parties updated on progress with the actions identified through the Conference (section 5.3) through posts and update reports on the Rother LSP website.
- 6.3 Organisations, stakeholders and partners will be invited and encouraged to participate in working groups and on projects that are delivered through the Rother LSP Action Plan and will be asked to support the work of these agencies, through their own organisation e.g. referrals to projects, and sharing of information.
- 6.4 The findings from this Conference, performance against the action plan and additional input in the coming year from partners and stakeholders will form part of the review of the District for the 2016 Conference.

**Report Ends**

## Appendix 1

### **Core Membership (RLSP Executive)**

The core membership is made up of decision makers from the following organisations:

- Rother Voluntary Action (Martin Fisher, Chair)
- Rother Transport Action Group (Cllr Ian Hollidge, Vice Chair)
- East Sussex County Council (Cllr Carl Maynard)
- Rother District Council (Brenda Mason)
- Sussex Police (CI Warren Franklin)
- East Sussex Fire & Rescue Service (Paul Evans)
- Sussex Coast College (Dan Shelley)
- NHS Hastings & Rother Clinical Commissioning Group (Richard Watson)

The administration and support work of the Rother LSP is provided by members of the Programme Office and Policy Team within Rother District Council. Further information about the core membership, including meeting dates and minutes can be found at:

<http://www.rotherlsp.info/>

## Appendix 2

The table below provides a list of the organisations identified by participants during the mapping exercise.

Organisation and Area	Services
<b>Action in Rural Sussex</b> Area Covered: Rural Sussex	Addressing need in rural areas.
<b>Active Sussex</b> Area Covered: Sussex	Signpost to sport and activity provision (including subsidised options) achieved through funding from bids.
<b>Bexhill Care in the Community</b> Area Covered: Bexhill	Services for older people.
